investStratford Moves to New Location

Economic Development and Business Services Relocate to heart of downtown Stratford

Stratford, ON – July 22, 2016 – **investStratford**, Stratford’s Economic Enterprise Development Corporation, along with its Stratford Perth Centre for Business staff have relocated to 6 Wellington Street in Stratford, Ontario, just one block from its former 73 Albert Street location. The new office situated at the corner of Wellington and Downie Streets offers a more modern and efficient environment with a flexible floor plan featuring a collaborative space for clients of both investStratford and the provincially-funded Stratford Perth Centre for Business programs.

investStratford will occupy the first floor of a two-story, multi-tenant office building located in Stratford’s downtown core, offering greater visibility for the economic development brand and its services which include the Stratford Perth Centre for Business.

Marlene Coffey, investStratford CEO said “The new office location will allow us to work more efficiently with a centralized office plan and improved business services. We were fortunate to find such a professional office space. Its enhanced operational efficiencies will allow us to evolve as we continue to meet the needs of the wider business community.”

An official Open House is currently in the planning stages for the Fall of 2016.

New location details: 6 Wellington Street
Stratford, ON, Canada, N5A 2L2
