GreenSeal Cannabis Company, Ltd. Granted Federal License

Health Canada Awards Greenlight to Local Cannabis Producer

Stratford, ON – December 4, 2017 – **GreenSeal Cannabis Company, Ltd. (GreenSeal)** announced today that they have received official notice of licensing from **Health Canada** and the **Office of Medical Cannabis (OMC)** to cultivate cannabis for medical purposes. Since obtaining City Council approval 3 years ago, GreenSeal has conformed to the OMC's strict checks and balances. The 28,000-sq. ft. production facility is located in Stratford's Wright Business Park and has been built in adherence to Health Canada's Access to Cannabis for Medical Purposes Regulations (ACMPR) with initial production starting in early 2018.

Stratford's industrial zoning permits production, storage, testing and distribution of medical cannabis and GreenSeal is now planning to focus on developing in-house cultivation programs and associated technological applications. The \$5.5M facility will create 20-30 full and part time jobs in the short term, with continued growth and additional jobs expected later in 2018 and beyond.

GreenSeal's facility will be one of the most secure in Stratford, with 24-hour surveillance and high environmental standards including state-of-the-art cultivation equipment and a two-stage air filtration process to neutralize any odours. GreenSeal's building has been designed to meet and exceed all Health Canada's standards and will not allow foot traffic or retail sales.

investStratford CEO Joani Gerber stated *"It has been a pleasure working with GreenSeal. They are at the forefront of a burgeoning, yet tightly controlled industry and an exciting addition to our expanding list of innovation-minded manufacturers. Their investment will bring jobs and add diversity to our agri-business landscape."*

Corey Hamilton, Co-Founder, GreenSeal Cannabis Company, Ltd. stated *"After a long and challenging licensing process, we are extremely excited to start focusing on cultivating high quality cannabis. This represents a giant step forward, so thank you to everyone involved for all your hard work and dedication in reaching this important milestone."*

We are very fortunate to be located in a forward-thinking and innovative environment like Stratford, which represents one of our biggest assets. We cannot thank the local community enough for their support throughout the past few years. As a new business, being able to call on resources like investStratford has been invaluable as we look to get established in our new home."

About GreenSeal Cannabis Company, Ltd.:
